

Product challenges

Key:

- Dot points: discussion points
- @: updates

| ID | Date | Challenge description, discussion and updates | Related Risks |
|----|------------|--|---------------|
| 1 | 15/09/2024 | <p>Having trouble removing the view_users button from the user view. Will discuss with the team other potential ways to implement this function.</p> <ul style="list-style-type: none">• Research some ways to hide buttons using javascript combined with html• Need to query the database and store the user type globally <p>@(16/09/2024) Work has been reallocated to Andrique since he has stated that he knows how to implement the feature.</p> <p>@(18/09/2024) A hidden view_users button has been implemented by Andrique.</p> | R2, R6 |
| 2 | 17/09/2024 | <p>Whilst working on a separate view for admin and user views, Andrique found it tough to integrate the nav bar into his work due to his limited time.</p> <ul style="list-style-type: none">• Potentially reallocate the task to someone with more time• Merge the separate view without navbar into the master branch first, then work on adding the features together. <p>@(18/09/2024) Andrique has delegated the integration of the admin and users views with the nav bar to Jaemin.</p> <p>@(21/09/2024) Jaemin has managed to make the nav bar and the views work together.</p> | R1, R2 |
| 3 | 22/09/2024 | <p>Melissa and Shaun note that there seems to be a display bug on the dashboard of our page.</p> <ul style="list-style-type: none">• Likely related to EJS template rendering• Test on all group members to see if they experience the same bug. If not, then it could be a package issue | R2, R6 |

|---|------------|---|------------|
| | | <p>@(23/09/2024)</p> <p>Group has been notified of the bug. During a meeting, we have determined that the bug occurs due to not having accessed the login page before the dashboard, thus resulting in a rendering error. Issue has been fixed by always starting the application from the login page.</p> | |
| 4 | 01/10/2024 | <p>Group found a bug such that the nav bar of the sprint board page would always show an older version than the current one.</p> <ul style="list-style-type: none"> • Can be caused by many members changing the code whilst not following git policies • Look through affected webpage code carefully to notice mistakes <p>@(01/10/2024)</p> <p>After trawling through git logs, we found out that due to a previous conflicting merge request, there were 2 instances of a nav bar. After deleting one, the issue was fixed.</p> | R3, R2, R6 |
