

Sprint 2 External PO Demonstration & Feedback

Date	04/10/2024
Time	5:00PM - 7:00PM
Attendees	Andrique, Gwyneth, Shaun, Melissa, Bernice, Jaemin, Deexita
Apologies	

Feature	Feedback
Story Points	<ul style="list-style-type: none">- Have a description of what each number means eg: what the story points are (tooltip) like how it works
Human Aspects	<ul style="list-style-type: none">- What can you do to improve human changes e.g. change background tooltips, change fields and dark and light mode.
Burndown Chart	<ul style="list-style-type: none">- must make sense, whatever standard for burndown charts.- Story Points vs amount of dates as long as justified.- Up to us what axis to use.
Task Creation View	<ul style="list-style-type: none">- Date should ideally show the date same as the description in the update. Data not persistent.- Fixed tags instead of free.- Make it "not started". Started = not started (to do, in progress, completed)- Make sprint number dropdown for existing sprints- Don't add validation for sprint no. cause not all are assigned to a sprint.-
Task View	<ul style="list-style-type: none">- Make the description page a popup instead of a new page.- Make the table seem more clickable.

Sprint Board	<ul style="list-style-type: none"> - Make sprint clickable then find the info - popup - More detail to the sprint board. (general)
Other	<ul style="list-style-type: none"> - Lovely if you can use some kind of frontend framework. recharts cause it's a cool project to show on your resume.

Final Notes:

Sprint burndown - all feedback and ensure has all info , any human aspect eg: tooltipping and etc. logging hours and testing documentation example: if u said u are doing user testing then what is the acceptance criteria, what did u do and break down what u did to test.
