Noted challenges for product

Sprint 1 (11/09/2024)

Date	Challenge	Response, application and outcome
05/09/2024	Trouble setting up a backend SQL database.	Andrique and Bernice, both with expertise on backend databases are paired up to work on the database. (@07/09/2024)
		Quick turnaround, database now working
08/09/2024	Trouble connecting backend to frontend	Thinking of following tutorials on youtube in order to find out how to link an online database to a frontend.
		(@09/09/2024) Currently still not working, attempting to use tutorial websites such as w3schools
		(@10/09/2024) Connection achieved, we were just missing a few lines of code.
